## Article 1 Award

The Department of Social Sciences of the University of Naples Federico II announces a competition by qualifications and interview for the award of 1 one-year research grant (hereinafter the "research grant") in the context of the MIUR-PRIN 2015-funded project entitled "War and Citizenship. Redrawing the boundaries of citizenship in the First World War and its aftermath," under the supervision of Prof. Daniela Luigia Caglioti.

Details on the research field, the research programme, the Head of Research, the funding body, the place where the work will be performed, the duration of the fellowship, the annual gross amount net of costs for which the University is responsible, the date of publication of the short list of candidates selected for interview, and the date of the interview are provided in **Annex A** to this notice.

## Article 2 Requirements for Candidacy

In order to participate in the selection process, applicants, of any nationality, must be in possession of the following qualification:

- Ph.D.

Owing to the nature of the research activities to be undertaken, the following are deemed to be preferential requirements: a PhD in History or equivalent, an excellent command of English, and a good command of a second Central, Eastern or South-Eastern European language.

In the case of candidates whose Ph.D. has been awarded abroad, the Departmental Board will decide on the validity of the said qualification for the purposes of participation in the selection process.

The candidacy requirements must have been fulfilled by the deadline for presentation of the application.

Candidates may not be permanent employees of universities, public research and experimental institutions or organizations, the *Agenzia Nazionale per le Nuove Tecnologie, l'Energia e lo Sviluppo Economico Sostenibile* (ENEA), the *Agenzia Spaziale Italiana* (ASI), or any other institutions that offer a Scientific Specialization Diploma (*diploma di perfezionamento scientifico*) that has been recognized as being equivalent to a PhD pursuant to Article 74, paragraph 4 of Presidential Decree no. 382 of 11 July 1980.

Furthermore, pursuant to Article 18, paragraph 1, letters b) and c) of Law 240/2010, no person who is related by (up to and including the fourth degree) or by marriage to a Professor who belongs to the Department for which the call has been issued, or to the Rector, the Director-General, or a Member of the Board of Governors of the University of Naples Federico II will be permitted to participate in the competition.

self-certifications specified by article 46 of Presidential Decree 445/2000, which must be prepared in accordance with **Annex C** to this notice, relating to:

6) possession of a PhD qualification, stating the title of the programme completed, the date of the degree awarded, the University that granted it, and the assessment by the Examination Board;

7) any other qualifications considered useful for the purposes of the competition (undergraduate degrees, master degrees, specialization diplomas, PhDs, certifications of attendance at advanced post-graduate courses issued in Italy or abroad, grants or research appointments in Italy or abroad, etc.).

The documents described in 6) and 7) above may also be presented in the form of certified copies accompanied by a self-certification appended to the copy or delivered in compliance with **Annex D** to this notice.

The publications and thesis described under 3) above may also be attached in the form of copies that have been self-certified in the manner indicated above.

Applications that do not include the declarations described under a), b), c), and f) above, or to which the required documentation is not attached, will not be taken into consideration, and will therefore be excluded.

The Department of Social Sciences will accept no liability for the loss of communications due to the applicant having provided incorrect details of his or her residence and address, to his or her failure to provide, or any delay in providing, notice of changes thereto, or to any cases of postal or telegraphic malfunction that cannot be attributed to the University Administration.

Candidates will be able to collect the documents and any publications enclosed with their application within three months following completion of the selection process. After this period has passed, the Administration will destroy the above-mentioned documents and publications.

#### Article 4 Selection Committee

The Selection Committee is appointed by the Head of the Department, following deliberation by the Departmental Board. It will consist of three sitting and two substitute members chosen from university professors and researchers.

The Selection Committee may consult highly-qualified Italian or foreign experts external to the University, provided that this entails no additional charge to public funds.

#### Article 5 Selection Procedure

Selection is based on assessment of the candidate's qualifications and an interview.

For the purposes of deciding the overall score, the Selection Committee's assessment will be based on 100 points, 70 of them relating to qualifications and 30 to the interview.

#### Article 6 Evaluation of Qualifications

Points for research project, qualifications and publications are awarded as follows:

a.1) up to 10 points for the research project produced by the candidate;

a.2) up to 10 points for the PhD qualification, with reference to the final assessment issued by the PhD Examination Board and the relevance of the PhD to the research

activities to be undertaken;

a.3) up to 15 points for further university qualifications (undergraduate degrees, other PhDs, specialization diplomas, master's degrees), as they relate to the relevance of said qualifications to the research activities to be undertaken;

a.4) up to 30 points for the scientific publications and thesis, taking the following criteria into consideration: originality and innovative nature of the scientific work and its methodological accuracy; the compatibility of the candidate's profile with the notice; and the scientific status of the publishers of the publications and their citations within the scientific community;

a.5) up to 5 points for other qualifications associated with documented research activities for government and private organizations in Italy and abroad (up to a maximum of 3 points for each certificate or qualification).

Evaluation of qualifications will precede the interview.

Candidates who score at least 35 out of 70 in the evaluation of qualifications will be shortlisted for the interview.

The results of this evaluation will be communicated to the parties concerned before the interview by posting on the noticeboard of the Department where the research will be undertaken and publication on the Department's website: <http://www.scienze sociali.unina.it/albo>.

Candidates who reside abroad may be interviewed via Skype.

In this case, too, candidate identification and publication of the interview are guaranteed.

The schedule for the selection procedure is attached to this notice (Annex A). It constitutes an official notice, and no personal communications will be sent to the interested parties.

#### Article 7 Interview and Grading

**The purpose of the interview will be, *inter alia*, to assess foreign languages proficiency.**

The interview will be deemed to have been passed if the candidate is awarded a score of at least 24 out of 30 points.

Scores will be ranked in descending order based on the sum of the scores obtained for the qualifications and the interview. In the event of a tie among two or more candidates, preference will be given to the youngest candidate.

The grant will be awarded based on the order of the relevant ranking.

In the event the award is not accepted by the deadline identified in Article 8 or is turned down before the research activities commence, the grant will be awarded to the next-ranking candidate in the classification order.

#### ARTICLE 8 Start Date and Activities and Obligations of the Grant Recipient

The successful applicant will be given notice of the manner in which his or her contract must be signed. He or she must sign the agreement within the essential term of fifteen days after receipt of the above notice, on pain of cancellation.

The grant recipient will conduct his or her research activities based on the previously-presented research project, under the supervision of Professor Daniela Luigia Caglioti. The Departmental Board will decide on the project design at the time the grant is awarded, as proposed by the Head of Research.

With the exception of the cases listed in the final paragraph of Article 9, the research activities associated with this grant must commence, without any possibility of postponement and under penalty of cancellation, on the first day of the month following that in which the agreement is signed. Commencement of research activities must be documented in a declaration issued by the Head of the Department at which the research takes place.

Subject to approval by the Head of the Department, the research activities may be carried out abroad at a foreign university or research institution for a maximum of six months in any one year. Said foreign university or research institution will issue express certification, provided that it is in line with the research activities to be carried out.

The grant holder may undertake missions in the context of the research programme.

On the suggestion of the Head of Research, and with the approval of the Departmental Council, the grant holder may be given limited subsidiary or supplementary teaching assignments in the academic courses; said assignments may not, however, compromise the research activities.

Said teaching tasks may not exceed a maximum of 50 hours in each academic year, and will be carried out in the form of teaching assistance, exercises, and seminars.

This teaching collaboration is not compulsory, must not have any effect on University of Naples Federico II's budget, and will not lead to any entitlement to a permanent post at an Italian university.

At the end of the grant period, the grant holder will present a detailed final report on the activities carried out for evaluation by the assessment committee established pursuant to Article 5, paragraph 1 of Law no. 370 of 19 October 1999.

The award of a research grant does not constitute an employment relationship in any manner, and will not give rise to any right of access to a permanent post at the University.

#### ARTICLE 9

##### Non-Accumulation; Incompatibility; Leave and Interruptions

The grant may not be held at the same time as any other study grant of any kind, except for those awarded by national or international institutions that supplement the research activities of the grant holder through a period spent abroad.

The grant is personal. On pain of cancellation, beneficiaries may not combine it with income from professional activities or work performed on a full-time basis, except as set forth in Article 6, paragraph 4 of the Regulations Governing the Award of Grants for Research Activities.

Simultaneous enrollment on degree courses, specialized or master's degrees, PhD courses with access to grants, or medical specializations, in Italy and abroad, are not compatible with access to the grants.

Grants may be provided to personnel working in the Public Administration, provided that they are placed on unpaid leave for the duration of the grant.

The research activities will be suspended during obligatory leave for duly-established maternity and sickness, provided that the entire period of the grant cannot be reduced due to the above-mentioned suspensions. A total justified leave of absence of less than thirty days in any one year will not be considered to be a suspension, and therefore will not have to be recovered.

#### ARTICLE 10

##### Automatic Termination of the Contract

In addition to the cases identified in Articles 8 and 9 of this notice, the contract will be automatically terminated with regard to persons who interrupt their activities without good cause or who are liable for serious breaches, where said termination is proposed by the Head of Research and approved by the relevant Departmental Board.

#### ARTICLE 11

##### Payments; Tax and Social Security Treatment

The grant will be paid net of charges due by the grant holder in equal monthly installments paid in arrears, except in the event of interruptions to the activities. Performance of the research activities in a regular and fruitful manner must be documented in a statement issued by the Head of the Department or Research Centre every four months.

On tax matters, the provisions of Article 4 of Law no. 476 of 13 August 1984 will apply to this notice. As regards social security, Article 2, paragraph 26 et seq. of Law no. 335 of 8 August 1995, as amended, will apply. With regard to compulsory maternity leave, the provisions of Ministry of Labour and Social Welfare Decree dated 12 July 2007, as published in Official Journal no. 247 of 23 October 2007, will apply. For sick leave, Article 1, paragraph 788 of Law no. 296 of 27 December 2006, as amended, will apply. During compulsory maternity leave, the allowance paid by INPS (the Italian National Social Security Institute) pursuant to Article 5 of the above-mentioned decree of 12 July 2007 will be supplemented by the University up to the total amount of the grant.

The University will provide the grant holder with insurance coverage against accidents and third party liability in the context of the performance of his or her research activities.

With regard to any matters that are not covered in this notice, reference will be made to the University of Naples Federico II's current Regulations Governing the Award of Grants for Research Activities as issued by Regional Decree 2017/239 of 24 January 2017.

<b>Research project's title</b>	War and citizenship. Redrawing the boundaries of citizenship in the First World War and its aftermath
<b>Abstract of the research project</b>	<p>The project focuses on the process of definition and re-definition of state, peoples and citizenship in two periods of crisis and transition that were also moments of construction of a new sense of belonging and of exclusion: the First World War and its aftermath. As critical moments of the mobilization of parts of the population and of the exclusion of others through violence and forced nationalization (including economic nationalization), the war and the revolutions it generated contributed to the re-definition of the criteria and concepts of citizenship and belonging. After the war, the collapse of empires and the creation of new successor states also brought about processes of re-definition of inclusion and exclusion, which impacted upon both Europe and her colonial possessions, as well as upon international law.</p> <p>Applicants are required to develop a <b>research proposal</b> focusing on the transition from state of emergency to ordinary life and in particular on the restoration of rights and legal processes; on the mixing and un-mixing of peoples caused by the redrawing of the borders, and by the different options introduced by the peace treaties, in particular in the successor states; on the writing of new nationality laws in the sovereign states strengthened or created by the war; on the emergence of statelessness as a crucial issue of the post-war order; on the way in which changes in nationality laws and citizenship notions affected gender relationships and the urge to redefine women' citizenship.</p> <p>The research proposal must focus on one or more successor states.</p>
