

Application Procedure

Students must apply online via our application system, available [here](#)

The application procedure is available on <https://www.ensma.fr/en/international-students/application-procedure/>

Students are strongly encouraged to read the instructions carefully before starting the application. They are also required to complete a learning agreement/program of studies available on <https://www.ensma.fr/en/international-students/application-procedure/> . This form must be downloaded as a supporting document when they apply online.

Application deadlines:

- 1st May (Fall semester or full academic year)
- 1st October (Spring semester)

Available Exchange Programs

Exchange students can choose one program from the following list:

- "Diplôme d'Ingénieur" (ISAE-ENSMA Engineering program)

This program is taught in French. Please find some information on <http://www.ensma.fr/en/formations-2/engineering-degree/courses/>

ENSMA students integrate the school after a 2-year intensive program and spend 3 years at ENSMA leading to a Master's degree.

Our 1st year corresponds to a 3rd year at University. Our 2nd year corresponds to a 1st year of Master program. The 3rd year corresponds to the 2nd year of Master program.

The course catalog is available on

<https://www.ensma.fr/wp-content/uploads/2018/01/Catalogue-des-cours-2016-2017.pdf>

According to their academic level, students need to choose 1st year, 2nd year or 3rd year courses and they cannot combine courses from different years.

The final year is composed of 6 specializations (majors). Students have to choose one specialization only among the list below:

- Aerodynamics
- Energetics
- Heat transfer
- Structures
- Advanced materials
- Computer science and avionics

- MSc AME (Aeronautical Mechanics and Energetics)

This program is taught in English. Please find some information on

<http://www.ensma.fr/en/formations-2/masters/>

This program is composed of 2 years of studies. Students cannot combine courses from different years. There are two specializations: Energetics and Propulsion and High temperature Materials

The course catalog is available on

<http://www.ensma.fr/en/formations-2/masters/> (see Master AME , then program organization)

- MSc Turbulence

This program is taught in English. Please find some information on <http://www.ensma.fr/en/formations-2/masters/> Careful, the 1st year of the program takes place in Lille (Ecole Centrale) and the 2nd year in Poitiers (ENSIP & ISAE-ENSMA). For this program, application procedure is different and available at: <http://imp-turbulence.ec-lille.fr/admission.php>
Please find some information on <http://imp-turbulence.ec-lille.fr/index.php>
The course catalog is available on <http://imp-turbulence.ec-lille.fr/programme.php>

- Research Project in laboratories

NEW PROCEDURE

From now onwards, students coming for a research project are responsible to find their own placement by contacting directly the laboratory/department/professor/researcher. Some internships offers are available at : <https://www.pprime.fr/?q=en/professional-training>

Students can also apply directly by contacting the research teams :

- Institut P' : <https://www.pprime.fr/?q=en/organigram> (section « general organization »)
- LIAS : <https://www.lias-lab.fr/node/66?lang=en>

Students can start the online application only after receiving an official approval from a supervisor.

Academic Calendar (to be confirmed)

· **Diplôme d'Ingénieur**

1st year students

- For special admissions and exchange students: Beginning of September 2018
- Semester 1: mid-September 2018 to end of January 2019
- Semester 2: End of January 2019 to end of June 2019

2nd year students

- For special admissions and exchange students: End of August, 2018
- Semester 3: mid- September, 2018 to mid-January, 2019
- Semester 4: mid- January 2019 to end of May, 2019

3rd year students

- For special admissions and exchange students: end of September 2018
- Semester 5: beginning of October, 2018 to end of March 2019
- Semester 6: beginning of April, 2019 to end of September 2019 (Graduation Project)

· **MSc AME**

1st year students

- Semester 1: mid-September, 2018 to end of December 2018
- Semester 2 : beginning of January 2019 to end of June 2019

2nd year students

- Semester 3: end of September 2018 to end of March 2019
- Semester 4 : beginning of April 2019 to end of September 2019

· **MSc Turbulence**

Information will be available online on <http://imp-turbulence.ec-lille.fr/admission.php>

Accommodation in Poitiers

ISAE-ENSMA has a partnership with two residences from the student housing national office. Therefore, rooms can be booked for international students.

“Résidence Gémini” : <http://www.crous-poitiers.fr/logement/residence-gemini/>

“Résidence Centre de vie” : <http://www.crous-poitiers.fr/logement/residence-centre-de-vie/>

After admission, the application procedure for accommodation will be sent to students.

If students don't want to live in these residences, more information is available on our international student guide http://www.ensma.fr/wp-content/uploads/2015/10/Brochure-ang_2015-2016.pdf (this guide will be updated soon).
