

Antonio Emolo was born in Marigliano (NA) on September 12th, 1966

ORCID iD: 0000-0001-8390-4168

SCOPUS iD: 6505922596

Public profile at Google Scholar: https://scholar.google.com/citations?user=_EcZvPAAAAAJ&hl=it

Academics

2016: Award of the National Scientific Qualification from the Italian Ministry of Education, Universities and Research (MIUR) as Full Professor in Italian Universities for the disciplines 02/C1 – Astronomy, Astrophysics, Earth and Planetary Physics

2002: PhD in Geophysics and Volcanology at the University Federico II in Naples

1997: MSc degree in Physics at the University Federico II in Naples

Current position

April 2019 - present: Docente di Ruolo di II Fascia (Associate Professor) at the Department of Physics 'E. Pancini' of the University Federico II in Naples

January 2005 - March 30, 2019: Assistant Professor at the Department of Physics 'E. Pancini' of the University Federico II in Naples

Institutional Assignments

2009-2012: Member of the Science Faculty Council of the University Federico II in Naples

2016-2019: Member of the Council of the Polytechnic and Science School of the University Federico II in Naples

2009-2012 and 2015-2019: Member of the Executive Committee of the Department of Physics 'E. Pancini' of the University Federico II in Naples

2006-2012: Member of the board of the PhD course in Seismic Risk at the University Federico II in Naples

2006-2013: Member of the board of the PhD course in Geophysics at the University Alma Mater Studiorum in Bologna

2013 - present: Member of the board of the PhD course in Structural Engineering, Geotechnics and Seismic Risk at the University Federico II in Naples

Main research topics

- Modeling of seismogenetic processes
- Analysis and inversion of strong motion data for the determination of kinematic characteristics of earthquakes source
- Modeling of seismic radiation produced by extended sources
- Moment tensor and focal mechanism
- Ground-Motion Prediction Equations
- Seismic hazard and scenario studies
- Ground Motion Prediction Equations
- Seismic Early-Warning
- Inverse problems and optimization techniques
- Seismic data analysis
- Seismic instruments

Research projects, scientific responsibility

2016-present: Responsible of the Memorandum of Understanding between the Department of Physics 'E. Pancini' of the University Federico II in Naples and the Department of Earthquake Engineering, Tarbiat Modares University, Tehran, IRAN

2015-2018: Scientific responsible of three one-year deals between the Department of Physics 'E. Pancini' of the University Federico II in Naples and the Korean Institute for Geosciences and Mineral Resources di Daejon (South Korea) concerning a feasibility study for seismic early-warning in South Korea

2015: Responsible of the research agreement between the Department of Physics 'E. Pancini' of the University Federico II in Naples and the Trimble Europe BV for the new generation seismic instrument testing

2011-2014: Task leader for the TASK 7.4 – Application to Schools – in the framework of the European Research project REAKT (Real time EArthquake risK reduCTion)

2008-2010: National coordinator of the research project S3 (Valutazione rapida dei parametri e degli effetti dei forti terremoti in Italia e nel Mediterraneo), in the framework of the agreement 2007-2009 between INGV and Civil Protection

2005-2007: Research Unit leader for the project S3 (Scenari di scuotimento e danno atteso in aree di interesse prioritario e/o strategico) – Agreement ProCiv-INGV 2004-06

Research projects, participation & funding

1996-1998: GNDT - Predizione di forti movimenti del suolo in aree sismogenetiche campione a scala sub-regionale ed urbana

1996: CEE - The seismic cycle in Southern Chile: evolution and monitoring

1996: CEE - TomoVes experiment

1998-2000: GNDT - Progetto Catania

2001-2003: GNDT - Sviluppo e confronto di metodologie per la valutazione della pericolosità sismica in aree sismogenetiche: applicazione all'Appennino centrale e meridionale

2002-2006: PON TECSAS – Tecnologie Esperte per il teleControllo e la teleSorveglianza dell'Ambiente costruito Strategico

2002-2006: PON SISMA – SIStema di Monitoraggio mArino

2002-2006: Rete Sismica Multicomponente – Regione Campania

2005-2008: RELUIS – REte dei Laboratori Universitari di Ingegneria Sismica – Linea di Ricerca 9: monitoraggio ed early-warning di strutture e infrastrutture strategiche

2008-2010: INGV-DPC V5 – Speed: Pericolosità connessa a terremoti pre-sin-eruttivi - Valutazione dell'hazard sismico e risposta di sito nelle aree vulcaniche Vesuvio e Campi Flegrei

2010-2014: UE - NERA project - UE progetto NERA: Network of European Research Infrastructures for Earthquake Risk Assessment and Mitigation

2010-2013: UE - GEYSERS project: Generalized Architecture for Dynamic Infrastructures Services

2011-2014: UE - REAKT: Real time EArthquake risK reduction

2015-2019: UE - EPOS-IP: European Plate Observing System

2017-2019: UE - SERA: Seismology and Earthquake Engineering Research Infrastructure Alliance for Europe

Current teaching activity

From 2005, Professor of Metodi Inversi (Inverse methods) for the Master in Physics

From 2012, Professor of Fisica generale I (General Physics I) for the Bachelor in Chemistry

From 2017, Professor of 'Metodi inversi in geofisica applicata' for the master in Applied Geophysics at the Centro di Geotecnologie of the University of Siena, San Giovanni Valdarno (Arezzo, Italy)

From 2005, Teaching activity for the PhD program in Physics for the courses 'An introduction to the seismic source' e 'Principles of inverse theory'

From 2003, short courses on 'Inverse Methods' at the Department of Geophysics of the Charles University in Prague (Repubblica Ceca), Department of Geophysics of the University College of Dublin (Ireland), the Korean Institute of Geosciences and Mineral Resource (South Korea), Dipartimento di Scienze della Terra e Geoambientali of the University 'Aldo Moro' in Bari (Italy), Dipartimento di Matematica of the University of L'Aquila, .

Affiliations

Member of the American Geophysics Union (AGU), European Geosciences Union (EGU), and Gruppo Nazionale di Geofisica della Terra Solida (GNGTS)

Reviewing activity

Member of the Editorial Board of 'Datasets in Geosciences' (www.datasets.com)

Referee for scientific journals: Annals of Geophysics, Bulletin of Earthquake Engineering, Bulletin of the Seismological Society of America, Geophysical Research Letters, Journal of Geophysical Research, Journal of Geophysics and Engineering, Journal of Seismology, Physics Earth Planetary Interior, Pure and Applied Geophysics, Tectonophysics.

Reviewer for the Grant Agency – Academy of Sciences of the Czech Republic and for the National Research Agency (CNCS) of Romania

Reviewer for the National Agency for the Evaluation of Universities and Research Institutes (ANVUR) for the GEV 02 (Physics) and GEV 04 (Earth Sciences)

Publications

50+ Scientific articles, book chapters and conference proceedings

80+ Conference papers

1 Book on Seismology at university level

H-index (Scopus): 16

Total citations (Scopus): 757

H-index (Google Scholar): 20

Total citations (Google Scholar): 1073
