### Practical Information

**Accommodations**  
UMH does not have residence halls or off-campus student accommodations. Instead, there is a vast network of private accommodations near the university. More information about this network can be found at the **Programa Nido**.

**Programa Nido** is a public database of private accommodations where owners voluntarily publish their properties so students can check availability near the campus. This online tool is public service-minded and aims to provide the university community with useful information in order to find accommodations according to their needs.

UMH has agreements with some private organizations that offer accommodations to the university community: [https://housinganywhere.com/](https://housinganywhere.com/)  

**Expenses**

**Health insurance requirements**  
- Students coming from within the European Union with access to the public health system in their home countries will be able to use their [European Health Insurance Card](https://europa.eu/youre aqui/health/your-health-insurance/). This card entitles students to any necessary healthcare during a temporary stay in any of the [EU member states](https://europa.eu/european-union/about_us/key_facts_and_numbers/ member_states) or in countries from the [European Economic Area](https://europa.eu/european-union/about_us/key_facts_and_numbers/ economic_area), at any outpatient department or health center near their accommodations.

- Students coming from a non-EU country must bring their own international medical insurance policy to cover their healthcare needs in Spain. Students should also bring an insurance company document detailing the extent of such coverage.

- Students coming from countries that have signed [Bilateral Health Agreements](https://europa.eu/youre aqui/health/your-health-insurance/with Spain) with Spain should bring their corresponding documentation with them from their home country and apply to be assigned a general practitioner physician at the health center nearest to their accommodations.
