##### **MISSION 4 COMPONENT 2: From research to business**

This component of the Italian recovery and resilience plan aims to support investment in research and innovation, to promote innovation and technology diffusion, to strengthen skills, and supporting the transition to a knowledge-based economy. It provides support to the public research system, researcher's skills and mobility as well as public-private cooperation at national and EU level. It is built on three main pillars: (i) Improved science base; (ii) Strong business-science links (knowledge and technology transfers; (iii) Support for business innovation (notably SMEs, start-ups).

The investments and reforms under this component shall contribute addressing the country- specific recommendations addressed to Italy in 2020 and 2019 on the need to "focus investment-related economic policy on research and innovation, and the quality of infrastructure" (country- specific recommendation 3, 2019), to "promote private investment to foster the economic recovery" (country- specific recommendation 3, 2020), to "focus investment on the green and digital transition, particularly on research and innovation" (country- specific recommendation 3, 2020).

#### **Investment 1.2: Funding projects presented by young researchers**

The aim of the investment is to provide new opportunities for young researchers in order to retain them in Italy. The measure shall support research activities of at least 850 young researchers, along the lines of programmes such as the European Research Council (ERC) and Marie Skłodowska-Curie Individual Fellowships (MSCA-IF), Seal of Excellence and Post Doctoral International Researchers, in order to enable them to gain an initial experience of research responsibility. Part of the contribution assigned to the ERC researchers shall be earmarked to the recruitment of at least one non-tenure-track researcher.

In order to ensure that the measure complies with the 'Do no significant harm' Technical Guidance (2021/C58/01), the eligibility criteria contained in terms of reference for upcoming calls for projects shall exclude the following list of activities: (i) activities related to fossil fuels, including downstream use<sup>70</sup>; (ii) activities under the EU Emission Trading System (ETS) achieving projected greenhouse gas emissions that are not lower than the relevant benchmarks<sup>71</sup>.

### **Investment 1.4: Strengthening research structures and supporting the creation of “national R&D leaders” on some Key Enabling Technologies**

This measure aims at funding the creation of at least five national research centres, selected through competitive procedures, able to achieve a critical threshold of research and innovation capacity through collaboration of universities, research centres and enterprises. The selection shall be made on the basis of competitive calls, in which national consortia led by a coordinating leader may participate, also taking into account the previous mapping exercise. Key elements of each National Centre shall be a) the creation and renewal of relevant research facilities b) the involvement of private actors in the implementation and implementation of research projects c) support to start-ups and spin off generation. The selection should be carried out by means of dedicated calls, the first of which shall be launched by the beginning of 2022. The choice between the proposals to participate in the calls shall be made in a manner similar to that adopted by the European Innovation Council.

### **Investment 1.5: Establishing and strengthening of "innovation ecosystems for sustainability", building "territorial leaders of R&D".**

The measure, implemented by the MUR, shall finance by 2026 at least 10 ‘territorial samples of R & I’ (existing or new), which shall be selected on the basis of specific competitive procedures, with a focus on the capacity to promote social sustainability projects. Each project must have the following elements:(a) innovative training activities carried out in synergy by universities and businesses and aimed at reducing the mismatch between skills required by businesses and skills provided by universities, as well as industrial doctorates;(b) research activities and/or research infrastructures carried out jointly by universities and enterprises, in particular SMEs,

operating on the territory;(c) support for start-ups;(d) involvement of local communities on innovation and sustainability issues.

The projects to be financed shall be selected on the basis of the following criteria: i) scientific and technical quality and its consistency with territorial orientation; ii) the effective ability to stimulate the innovative capacities of enterprises, in particular SMEs....
