Information for the interviews

The interview will be held in room **0M03** of the Physics Department “E. Pancini” of the Federico II University, Monte S. Angelo University Complex, Building 6, Via Cintia, Naples. The interview can be done remotely at the following link within the **Microsoft Teams** application:

<https://teams.microsoft.com/meet/372227080751996?p=zrJgRR6vcd0l5zemTK>

Candidates who choose to take the interview remotely must communicate their choice at least 24 hours before the call via email to the following addresses:

saracino@unina.it - simona.colombelli@unina.it - valeriokevin.cortese@unina.it

The interview will last about **25 minutes** for each candidate, with the format described in:

http://www.fisica.unina.it/en_GB/ammissione-dottorato

The slides of the presentation (**max 3 in .pdf format**) should be sent, **at least 60 minutes** before the start of the session, to:

saracino@unina.it - simona.colombelli@unina.it

Candidates, either in presence or remotely, are requested to show their identification card (in original, no files) before starting the interview.

The second part of the interview will be similar to an academic examination done in remote mode. The candidates should be able to eventually write text and show their answers to the examination board; therefore, they should be equipped with appropriate devices (e.g. tablets, camera focusing on paper or blackboard...) like for standard examinations during the pandemic period.

To avoid technical problems (no connection, low quality for audio/video...) the candidates of each session will be contacted during the days before the date scheduled for the interview, to perform a suitable test of the connection. If the test will not be done, any kind of problem in the connection during the interview will be attributable to the candidate.

For any other communication please contact the following addresses:

saracino@unina.it - simona.colombelli@unina.it
